

We embrace challenges, we support solutions.

# A year to face challenges and find solutions

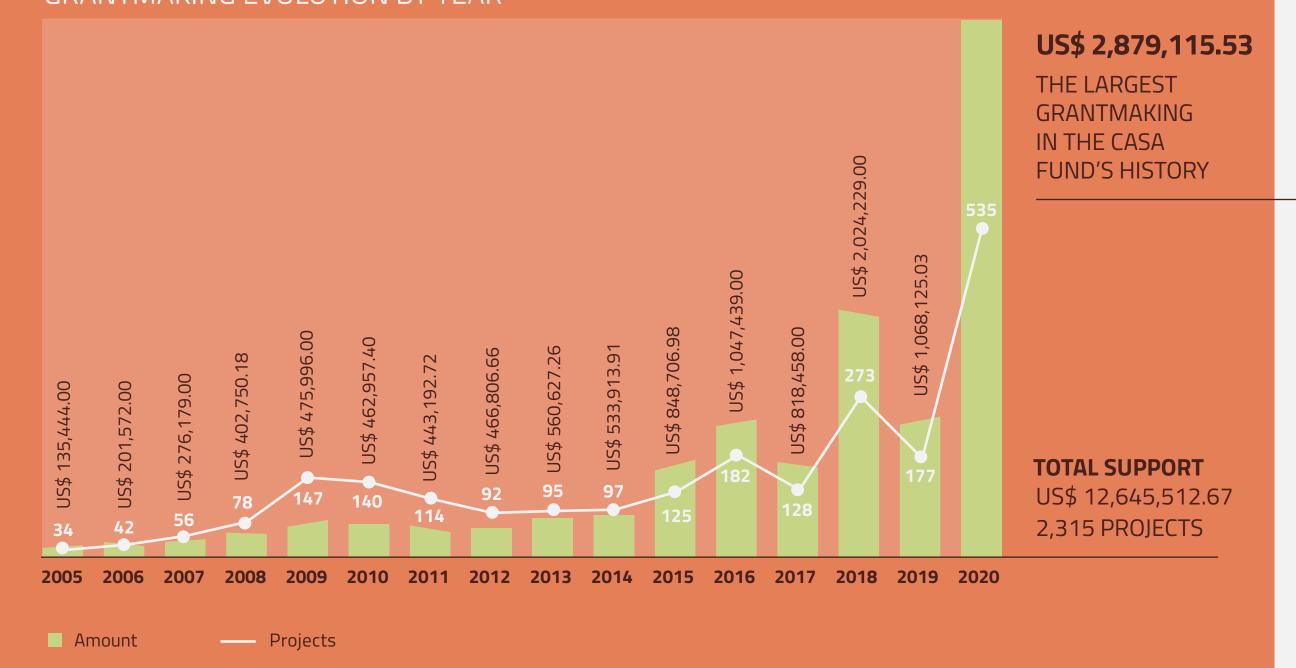

A painful year in which social inequalities became even more evident, but also a year to overcome challenges.

Check out the main numbers of the Casa Socio-Environmental in 2020.

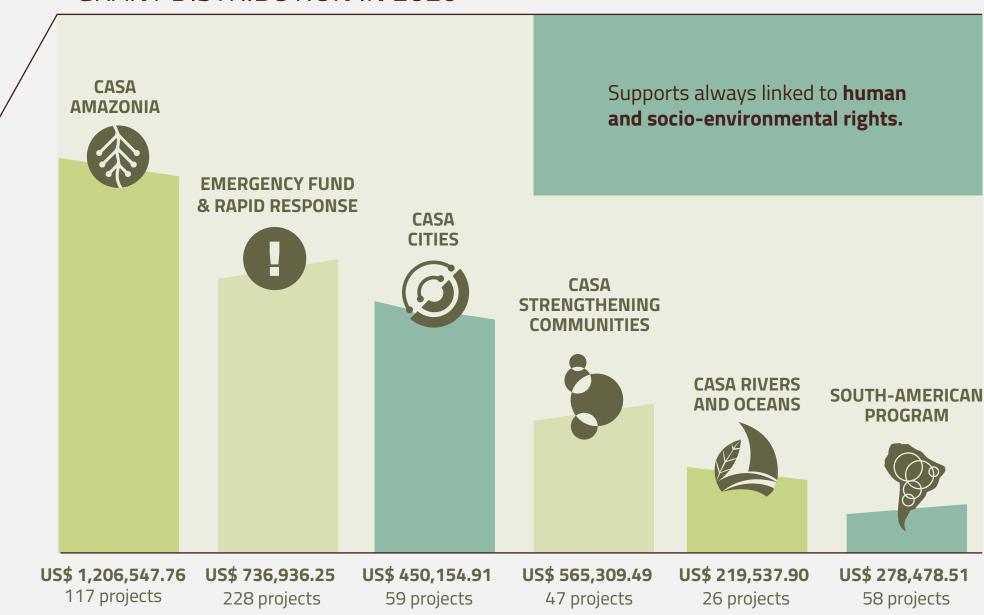

Over US\$ 12 million donated in the 2005-2020 period.

# GRANTMAKING EVOLUTION BY YEAR

## **GRANT DISTRIBUTION IN 2020**

The Casa Socio-Environmental Fund was created to promote recognition of the grassroots communities' protagonism in local transformational processes, as political subjects entitled to their socio-environmental rights.

The Casa Fund mission is to ensure grants reach local groups directly and timely, thus strengthening civil society and by consequence democracy.

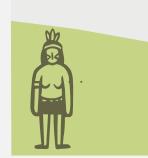

US\$ 3,456,958.97

DONATED TO
